

## Embracing Technology – worksheet to review and improve your business

In this worksheet we are addressing the major elements in working thought the processes to review your sign and digital print business. Be forthright and honest with yourself it is your future. Well already know it is changing. It is your choice to make it better or worse.

#### Some must have items on your business improvement checklist:

A key to ensuring you tick all the boxes is creating you own personal checklist to embrace the SWOT in your business and market place. Now, remember it's your checklist and therefore it's important to personalise to your needs.

Lastly – If you are in any doubt about your ability, skills or commitment to this 'future review and plan" my best recommendation is to outsource it! The VERY last out come you want is to not follow through as a project of this nature is critical to your future. Yes, we do offer this service – call me John Hadfield +61 418 161 600 or john@controlzone.com.au

#### Part 1 – People – are you ready to change

The origin point for business failure can be defined by the organisations inability to change. Why is change so difficult? Realistically, there is almost infinite number of reasons why people struggle with change. Without delving too deeply here are a few issues about change for you to tackle:

•	We haw	ve always done it this way – Old habits die hard your challenge is to develop those who hange.
	0	A1 - Assess your staff and yourself to establish who is ready for the journey and why. They
		are :-
		AO Milatara tha abilla cambara a anta bacca
	0	A2 – What are the skills your key people have:-
	0	A3 – Who in your team needs additional skills and what are those skills.
•	-	e resist losing control – many can work between being in control and following the pack – your team.
	0	A1 – Assess the personality types and perhaps look at outsourcing a personality profile for
	Ü	each :-
	0	<b>A2</b> – Once you understand more about their personalities – do you have the right person in
		the right position? :-
		NameRole

Name Role Role Role Role Role Role Role Rol			
Name		Name	Role
Name			Role
Name			Role
Name			Role
Name Role  Name Role  Name Role  Name Role  Name Role  A3 – Review this list when you have decided on market areas in next sections of this worksheet, as you may find a personality, skill or professional gap in your :future team, not down your immediate ideas .  's in it for me? WIITFM – Understand the process of change relative to the people involve ake time to educate the benefits and features for them.  A1 – As you are building profiles about your future team, just as there has to be a reward and benefit for you, shouldn't there be a balance with your staff, ask them what the need :-  A2 – Conduct a Brain Storming session to involve the staff and leverage their insights in your business:-			Role

		A1 – As you are building profiles about y and benefit for you, shouldn't there be a	es for them. our future team, just as there has to be a reward balance with your staff, ask them what the need :-

	0	A2 – Establish who want to be part of the changes and who doesn't :-
		A2 Highlight and list the positive and the visite Hile ich leader sytus weathlead leaguing
	0	A3 – Highlight and list the positives and the risks. Like job losses, extra work load, learning
		new skills, new premises, more people, etc
		Strengths
		Madagasas
		Weaknesses
	Insecu	rity – Stress often results from the unknown – keep your team informed appropriately.
_	0	A1 – Conduct a team meeting to establish and list concerns of staff :-
	O	711 Conduct a today modeling to cotability and not concorne of clair.
	0	A2 – Then take the time to list all the upsides of your new vision :-
	Ü	
	0	A3 – Conduct a "the future is bright" lunchtime meeting and highlight and list the positives
	Ü	Strengths
		Opportunities
•	Reduc	tion in power or loss or prestige – many fear change will reduce their skills, leave them
		silly or inadequate or lower their self-esteem.
		A1 – How are you going to reassure the staff their new or existing role will offer them
		benefits, make a list :-
		Strengths
		Opportunities
	0	<b>A2</b> – Invest in those you feel are ready for the journey and have a face to face meeting with them :-
	0	A3 – Record their concerns and offer offsets you know you can deliver with their
	-	commitment:-

byou own additional actions and add to this list, to ensure the coverage is tailored to s	suit

Develop you own additional actions and add to this list, to ensure the coverage is tailored to suit your business vision, your staff and the future plans evolving.

### Part 2 Equipment – output increases that will take your breath away

Over the last three decades we have seen rate of change that I would like to propose is at least a 2000% increase multiple from the starting point in signage including wide format while in small format print its many times more!

You have read the article and potentially had a sleepless night or I'm hoping you see a vision of endless opportunities! Let me offer you this – Did the Wright Brothers imagine a world where 300 odd people step on board a Boeing 777 and in literally hours step foot on to another continent? Here is your chance to open your mind, your opportunities and cheque book (while we still have them before money goes fully electronic) and create your own vision of the future in sign, print and graphics

What is our equipment of the future – sure A1 is easy as its based on facts. However A2 – is why we are doing this audit, be brave and challenge yourself – we can worry about the nuts and bolts latter – Dream Big!

• A1 – How is your current equipment suited to your current business, make a list and do an audit :-

All Current Equipment:

- 1. Digital print:
- 2. Finishing:
- 3. Engraving:
- 4. Laser:
- 5. Work Environment:
- 6. Other
