

MySite™ – evolution in web design

Your website needs to reflect the changing face of your business. With MySite™ these changes are only a mouse click away. MySite™ gives you the power and the freedom to update your website whenever the need arises, without needing any special software or special skills.

MySite™ puts you in control

Unlike traditional websites, MySite™ puts the power to change in your hands. Whenever you have a new product, a sale or a special event, MySite™ helps you tell the world about it. Since you control the editing, these changes cost you nothing more than a few minutes of your time.

MySite™ is child's play

If you can use a mouse and a keyboard, you can update MySite™. You don't need any special software or any special skills. MySite™ is all about making things easy, so you can be sure that no matter who you are, or even where you are, you can update your website with ease. It's easy. The MySite™ evolution is about people, not technology.

MySite™ saves you time

No one knows what changes you'd like to make better than you do. With MySite™ you don't have to wait for someone else to 'get up to speed' with your needs. You can make the changes you want, when you want them.

MySite™ is a complete service

MySite™ includes everything you need to be online. You don't need to worry about organising technical details such as domain registration, web hosting, ftp or even email addresses. At MySite™, we take care of all of this for you.

More than just a great website platform,
MySite™ is a complete system
designed to actively promote and
grow your business.

MySite™ Communicator is a powerful marketing tool

MySite™ Communicator turbocharges your marketing by allowing you to create rich, graphical newsletters and email them directly to your client base. Any time you have a new product, event or service to announce, MySite™ Communicator helps you put this information in front of your clients, keeping you fresh in their minds.

MySite™ Communicator is child's play

Nothing could be easier. MySite™ Communicator uses the same user-friendly system as MySite™ websites, meaning that you don't need any special skills to start sending your clients highly professional, HTML email campaigns.

MySite™ Communicator helps you manage your business

MySite™ Communicator comes complete with a powerful mailing list manager to help you organise your mailouts. You can create up to 20 different mailing lists to sort clients by interests, geography or just about anything you can imagine. You can even send different campaigns to different mailing lists, helping you to make sure your clients are getting the information most relevant to them.

MySite™ Communicator is an integrated solution

MySite™ Communicator has been designed to work seamlessly with your MySite™ website. You can even add special forms to your website allowing visitors to automatically subscribe to your mailing lists, building your client base even further.

MySite™ Communicator saves you time

MySite™ Communicator is so easy to use, you can develop and send campaigns in minutes. If you want to preserve the look of your marketing campaign, you can even create exact copies of previous campaigns, saving you valuable time.

MySite™ is all about making things easy.
It's about people, not technology
